Amazon Clipper Cruises - 4 nights

The great amazon jungle, a mysterious and rich place to be known. Legends, discoveries, adventure, dreams and an unforgettable experience. A land of diversity. Rain determines the region. Climate, vegetation and even its people are conditioned by the rain that comes in October and stays until April, leading the rivers to flood the riverside woods and a great part of the region's lands. After rain finishes, the rivers wash out and some beaches appear as the water level lowers.

Duration time: 5 day(s), 4 night(s)

Departures on: Tuesdays

Program:

1st day - MANAUS – Tuesday - Arrival at Manaus airport and transfer to Hotel Tropical. Free afternoon.

2nd day - MANAUS/AMAZON CLIPPER – Wednesday - Leaves the Tropical Hotel landing-stage at 14:30 hrs. Presentation on board of the staff, route and facilities. Navigation to the Pagodão river (tributary of the Negro). Canoe trip shortly before sunset, returning after dark, with the possibility of observing nocturnal animals and perceive the change in the forest as night falls. Dinner. Navigation to Açu Creek or nearby tributaries. Dinner on the way.

3rd day - AMAZON CLIPPER - Thursday - Canoe trip at sunrise for bird watching. Breakfast. Walk in the forest with commentaries by the specialist. Observation of the flora. Visit to a "caboclo" family. Chance to see the local way of life, preparation of manioc flour (the staple foodstuff of the Amazon), the health and education situation of the children etc. Lunch. Fishing for piranhas. Navigation through the Anavilhanas, the world's largest fresh water archipelago, more than 1000 miles from the ocean. Navigation. Dinner. Night trip to see caimans and possibly frogs, sloth, snakes and other species, depending on the season

4th day - AMAZON CLIPPER – Friday – Breakfast. Visit to the village of Novo Airão, with its handicraft boat yards where the "AMAZON CLIPPER" was built, sawmills, market and other activities. Navigation to Praia Grande or other white sand beach. Swimming if conditions permit, and observation of the vegetation of sandy areas. Lunch. Canoe trip in lake Acajatuba or adjacent lake domains to see typical flora (rubber trees, Brazil nuts, useful palm trees of various types). Dinner. Navigation.

5th day – AMAZON CLIPPER – MANAUS/ ... - Saturday - Lake Janauary. Canoe trip at sunrise for bird watching. Breakfast. Navigation to the "Meeting of the Waters". Return to the Tropical Hotel landing-stage, with fine views of Manaus waterfront. Arrival at 11:30 hrs. Transfer to the airport.

Important Information :

The Clipper company operate all cruises in two different **standards of cruise confort:**

The Traditional fleet contains several boats with similar comfort and facilities, such as the "AMAZON CLIPPER", the "SELY CLIPPER II" and the "AMAZON ANGLER", which are Amazon riverboats with traditional lines.

For those who wish the comfort of a luxury ship, there is the Premium, a vessel unique in style that offers "simply the best" small-ship cruising in the Amazon.

Both categories were designed exclusively for cruising on the Amazon River and its tributaries. Using years of experience on other tour boats the Clipper Company made several design innovations to make them as comfortable as possible and still offer a perfect interaction with nature.

The shallow draught allows those boats to visit locations inaccessible to many other boats and the outboard powered canoes that we carry are used for trips in lagoons, narrow channels, creeks and flooded forest

Amazon Clipper Doesn't fit 3 people in the same cabin
